The fact finders. Sound, color, 16-mm., 31 minutes.

This film tells, in lively fashion, the rather dramatic story of how farm statistics are collected and used—from the farmer through the State-Federal Crop Reporting Service back to the farms and agribusiness. Shows how farmers voluntarily report on their production plans for the benefit of others. Takes you into the U.S. Department of Agriculture building in Washington and shows crucial national crop and livestock reports being prepared and released under rigid security regulations. TV cleared (28¾ minutes, TV version available).
